

Introduction

The Online Shopping system is used to reduce the time and effort required for normal shopping.

Scope

This System allows customers to maintain their cart to add or remove product and place order.

Specific RequirementsFunctional requirement

- Registration
- Login
- changes to cart
- Payment
- Logout

Non-functional Requirements

- Security
- 24x7 availability
- Reliability

once an order is placed the shipping of the product is done and product must be delivery to the customers

The system can be used by any naive user and it does not require any educational level, experience or technical expertise in computer field but it will be good up if user has the good knowledge of how to operate a computer.
